

Offering solutions to the common and most complex of government contracting issues.

KatzAbosch
Government Contractor Consulting

As a business contracting with the government, you recognize vast and complicated processes and the struggle to keep up with an ever changing industry. On the contrary, if new to government contracting, you will soon discover that you need expert assistance and guidance. You know your business inside and out, but find that government contracting requires a special knowledge in order to navigate effectively.

"KatzAbosch is more than just another accounting firm. Since the beginning, they have viewed our business as a whole and have helped improve operations, create a solid financial infrastructure and advise on growth strategies. KatzAbosch considers us a strategic partner and works tirelessly to ensure we succeed. From accounting to business connections to sage advice, they have been an integral part of the BTS Software Solutions family."

— David W. Tohn, CEO of BTS Software Solutions

Preaward Survey of Contractor Accounting System: A preaward survey allows a company to provide an assessment of their capabilities as they relate to accounting for specific government contracts. Having this completed prior to submitting an RFP for a cost reimbursable contract is essential to meeting your customer's needs.

Incurred Cost Submissions: The government requires a company to complete an Incurred Cost Submission six months after the completion of the contractor's year end per the allowable cost and payment clause (FAR 52.216-7(d)(2)). This clause applies to cost-reimbursement type contracts. The completion of this submission can be very time consuming and complex. KatzAbosch can relieve your personnel of this burden and prepare the submission for the company.

Outsourced Accounting Services: Whether a start-up, a growing or a mature business, at some point your company may need help. Outsourcing your accounting or CFO needs may be the perfect fit for your company.

Tax Credits: Are you paying too much? There are tax credits that many companies can take advantage of such as the Research and Development credit, the Cyber Security credit and more. KatzAbosch can evaluate your business to ensure you are taking advantage of all the credits available to your company.

Accounting & Systems Compliance: KatzAbosch assists Government Contractors in preparing for the future of their business. Our experienced financial professionals offer our clients technical expertise and sound business advice oriented specifically to the requirements of Government agencies.

Consulting: Perhaps you know that you need help but the root cause of the problem has not been identified. KatzAbosch listens to your problems and helps you identify the best alternatives for a solution. You can also look to us for assistance with minority contractor and 8(a) programs.

Merger, Acquisition & Sales Strategic Planning: Looking to grow or sell your company? KatzAbosch has an experienced team of Merger and Acquisition Consultants who have a long history of helping our clients grow and prosper.

University of Baltimore, Bachelor of Science, Accounting

“ I was open to a relationship with KatzAbosch because they have an excellent reputation as a first-class accounting firm. KatzAbosch helped LG-TEK by providing us with exceptional accounting, auditing, and tax preparation services. The result was timely and thorough completion of all of our accounting needs. One thing I like is their willingness to develop a true partnership with us with an open exchange of ideas and recommendations. I know I can rely on KatzAbosch for their guidance in helping me to constantly advance the financial aspects my business. I would highly recommend KatzAbosch to people who want the best for themselves and/or their business.”

— Elizabeth Rendón-Sherman, CEO/CFO of LG-TEK
